Hi George, it is Jonathan Moody in the Water Enforcement Branch. I'm copying Pat Kuefler, the branch chief, and Kevin Pierard, the NPDES branch chief.

Wendy

Don't recall who it was that I talked to from Chicago for your 402 group a few months ago, I want to guess that first name was Jonathan, but can you forward? This is the sampling results from IDEM sampling at UMI/Peabody Somerville East.

Station WPA-07-0010 was in reclaimed Hat Creek above visible seeps

Station WPA-07-0011 was at a seep

Station WPA-07-0012 was at the SR 61 bridge

Station WPA-07-0013 was at the 402 outfall

Station WPA-07-0014 was below the 402 outfall in Hat Creek

Thanks

If they have any thoughts on the results, I would appreciate hearing back from them.

George
